# How Starmind empowers your employees

Starmind provides your organization a **self-learning knowledge network** that leverages AI to generate associations of employees and skills, empowering your employees to access the knowledge they need to get work done.

# How Starmind works

## User Interface layer

Real-time access to people, skills, undocumented knowledge, and solutions within your organization via Starmind on desktop, mobile, and web, or the application of your choice

Learns from interactions

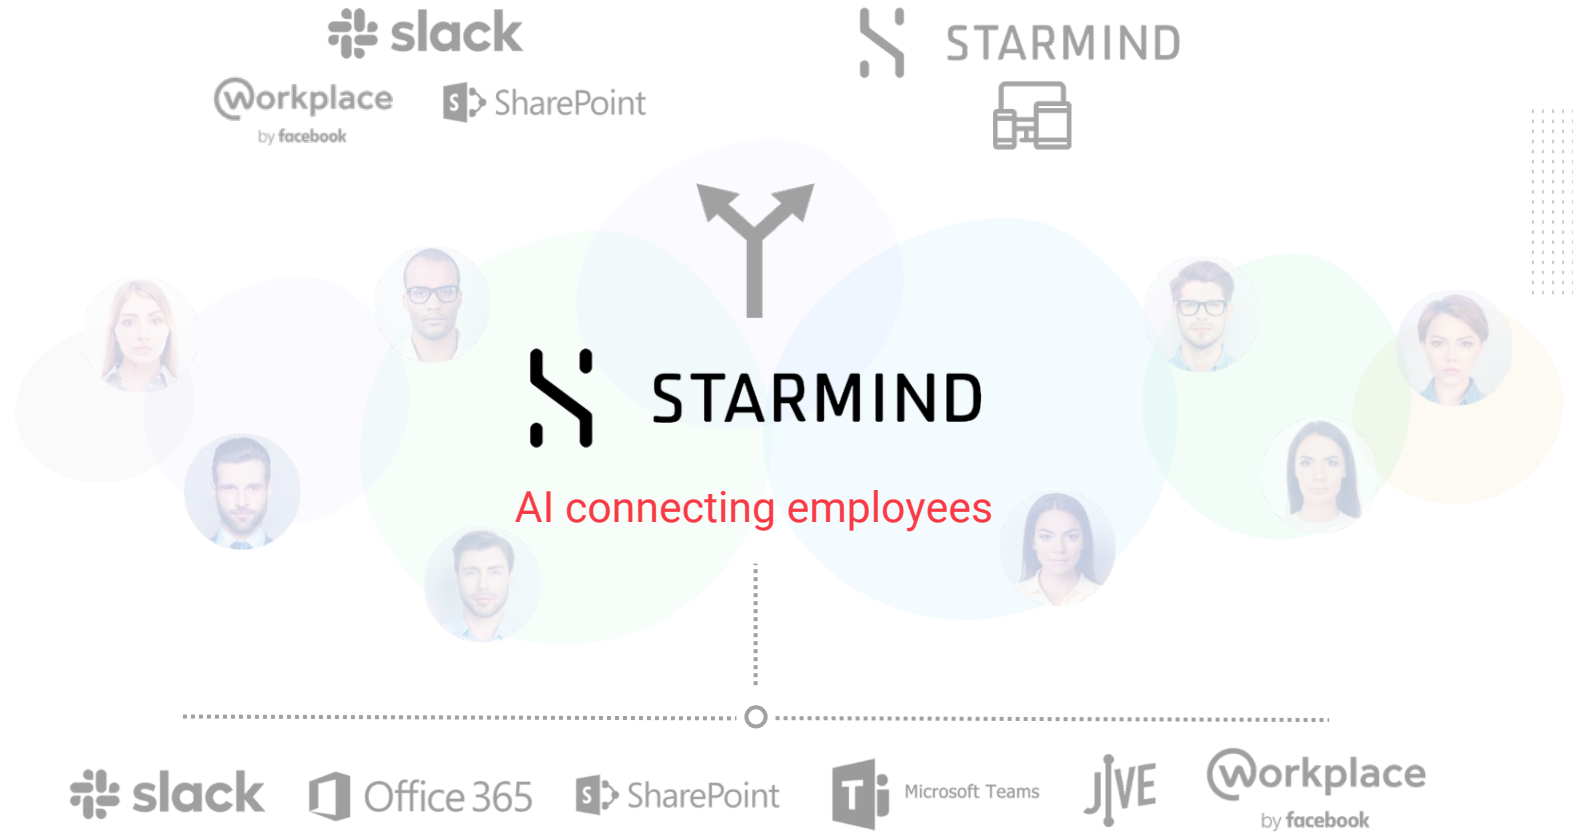

## Self-learning algorithms

that create neural know-how networks of the 80% undocumented human intelligence in your organization

Learns from data sources

## Optional data sources

housing 20% documented knowledge

Starmind seamlessly integrates into your existing ecosystem by providing **the augmented human intelligence layer** missing in software tools.

# Seamless integrations
