Multi-Channel Inbound - Medical Booking

Voicebot

The image shows a screenshot of the Diagnostikum website. The header includes the Diagnostikum logo, navigation links (Zurück zur Standortübersicht, Über uns, Standorte, Leistungen, Für Ärzte, Karriere), a 'Befund Download' button, and a language selector (DE). The main content area features a location pin for 'WIEN' and the text 'Diagnosezentrum Meidling'. Below the website screenshot is a photograph of a medical device, likely a CT scanner, with a patient bed and a large circular gantry.

Chatbot

The image shows a screenshot of a chatbot interface. The header indicates 'WEBBOT POWERED BY ONDEWO'. The chat history shows three messages from the bot, each with a timestamp of 0:43. The first message is 'Herzlich Willkommen im Diagnosezentrum Meidling!'. The second message is 'Dieses Gespräch wird zur Qualitätssicherung und zur Verbesserung von mir ihrer digitalen Assistentin aufgezeichnet und automatisiert verarbeitet.'. The third message is 'Sind sie damit einverstanden?'. Below the messages is a text input field with the placeholder 'Message...' and a blue send button. A red box highlights the word 'JA' as a possible response.

Why ONDEWO?

“The right cooperation partner at the right time is often key to success”

The right cooperation partner at the right time is often key to success: We started a cooperation with **ONDEWO** through aws Industry-Startup.Net, successfully combining niche expertise and artificial intelligence knowledge in safety-critical environments to help save lives. Find out more by clicking the video below (German only). [#forasaferworld](#)
